

Dear Valued Customer.

During this time of the COVID-19 crisis, ASAP Freight is temporarily suspending its tangible signature requirements for deliveries where applicable effective Monday, March 23rd. Instead, we are implementing the World Health Organization's guidance on social distancing. At the time of delivery, the delivery person will collect a Verbal POD of the person accepting the shipment and use COVID as the signature. This method will apply to both businesses and residences.

Lastly, ASAP Freight is suspending in-home pickups and deliveries until further notice (curbside delivery still available). We appreciate your understanding and cooperation in helping keep your business moving ASAP.

ASAP Freight Management Team
